REPORT ON WORLD ENVIRONMENT DAY

ORGANIZING CHAIRPERSON: DR. SHARADHA RAMESH, DIRECTOR, SCON

FACULTY RESPONSIBLE: MRS. LEEJA BONNY THOMAS
MRS. JENNIFER W. ANTHONY

To celebrate World Environment Day, Symbiosis College of Nursing announced a "Photography Competition" since students are in lock down period it was best thought to kindle their creativity with social distancing norms.

We were looking for students own personal vision on environment and how they interact with the nature in their photography, which focused on the theme of World Environment Day 2020: TIME FOR NATURE.

Total 20 students participated and submitted their 2 best shot. Winners photograph portrayed uniqueness of concept, originality, and clarity of expression, creativity and also innovative means of delivering message.

These photographs were featured on SCON website and to acknowledge students hard work, winners were presented with E- certificates.

Winners for the photography competition were:

1st PRIZE: Ms. RISHAL REJI

2nd PRIZE: MS. BOMTER RIBA

3rd PRIZE: MS. GUMI RIRAM

REPORT ON
Biodiversity Sunday Session
On
SUSTAINABLE TRAVEL TALES

Submitted by – Miss Prarthana Dhanawade

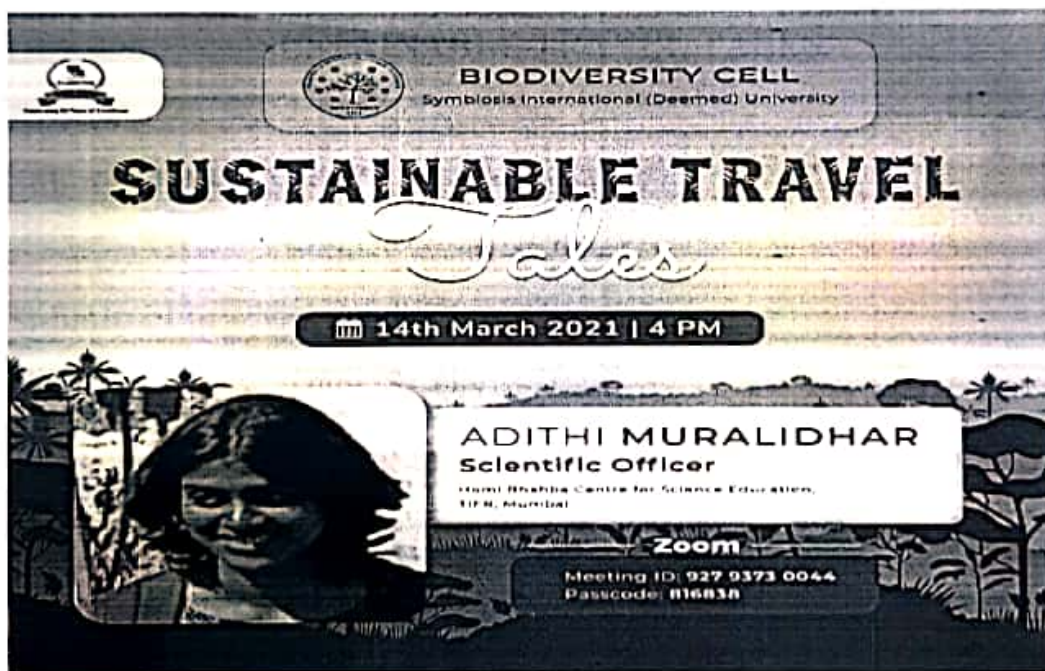

B. Sc 3rd year, SCON

Submitted to – Mrs. Leeja Bony Thomas

Tutor, SCON

Date – 14/03/2021

Time – 04:00 pm – 05:00 pm

The Biodiversity cell of Symbiosis International University conducted a session on the topic Sustainable Travel. The guest speaker was Miss. Adithi Muralidhar (Scientific Officer, Homi Bhabha Centre for Science Education, TIFR, Mumbai).

The session was held on the Zoom online meeting platform, on 14th March 2021, at 4 pm. There were various participants from various institutes of Symbiosis University.

The session started by introduction of the guest speaker by Miss Nilu. Miss Adithi started the session by explaining the topic and objective behind discussing about Sustainable Travel. She explained the term Sustainable Tourism as an approach to tourism in which neither the natural environment nor the socio cultural fabric of host communities will be impaired by the arrival of tourist. On the contrary, the natural environment and the local communities should be benefited from tourism, both economically and culturally.

She shared her travel experiences and the effect of tourism in those particular regions as per her observations. With her presentation she explained her ideas on sustainable travel. She included the points like:

What is sustainable travel and what it could be?

Different types of tourists.

Tips for sustainable traveling.

Along with sharing the images of places she visited she shared her experience at that region and how tourism is causing harm to environment by spreading litter over the places, improper trash management, etc. She even told importance of ethical photography, supporting local culture. After completing the presentation, a small interaction about participant's experiences and queries was done. She even shared her email so we can contact her along with other social media handles.

It was really a wonderful and informative session. The take away from this session for me was the tips to preserve the sanity of the nature and culture of the place we visit. After the interactions I understood how our small actions can affect the surrounding environment.

The session ended by everyone thanking mam, praising her for her work, lecture, and Biodiversity Club for conducting those sessions.

REPORT ON

Biodiversity Cell Session - Importance Of Wildlife Outside Protected Areas

Submitted by: Ms. Akshara Sharon Bansod,
4th year B.Sc. Nursing, SCON.

Submitted to: Mrs. Leeja Bony Thomas,
Tutor, SCON.

DATE: 21/03/2021

TIME: 4:00PM - 5:00PM

The members of the Biodiversity Cell and a team from Symbiosis Statistical Institute (SSI), organized a session on the 'Importance of Wildlife Outside Protected Areas.' Mr. Hrishikesh Wagh, who is a young Environmentalist, spoke specifically about leopards. He has done his research on wildlife and its conservation; and continues to work with passion in this field.

The session started on time at 4:00PM with the introduction from the Head of the Biodiversity Cell. This was followed by a welcome address by Ms. Ritu Bhasin, who is a student from SSI. There were about 35 participants throughout the session who listened with enthusiasm and interest.

From Symbiosis College of Nursing, I, Ms. Akshara Bansod was the only participant. Soon after the welcome address and the introduction of the speaker, Mr. Hrishikesh Wagh took over. He spoke about his interest in wildlife and how he acquired the curiosity about leopards while growing up. He decided to give his interest an educational background and hence, he is now an environmentalist at a very young age.

Mr. Hrishikesh has received a lot of appreciation and feedback from well-known personalities for his distinctive work and research. The speaker talked in detail about how to identify the tracks of a leopard and what it consumes. He also highlighted the importance of conserving these species and creating a friendly environment for them with the help of National Parks.

The entire session was very informative, thought provoking and provided the participants with new knowledge, which is rarely talked about.

Mr. Hrishikesh had a very interesting way of presentation, as he used pictures, which he himself had taken, that made the session even more absorbing.

There was a Q&A session at the end of the presentation. Many students had their doubts, which were explained in detail.

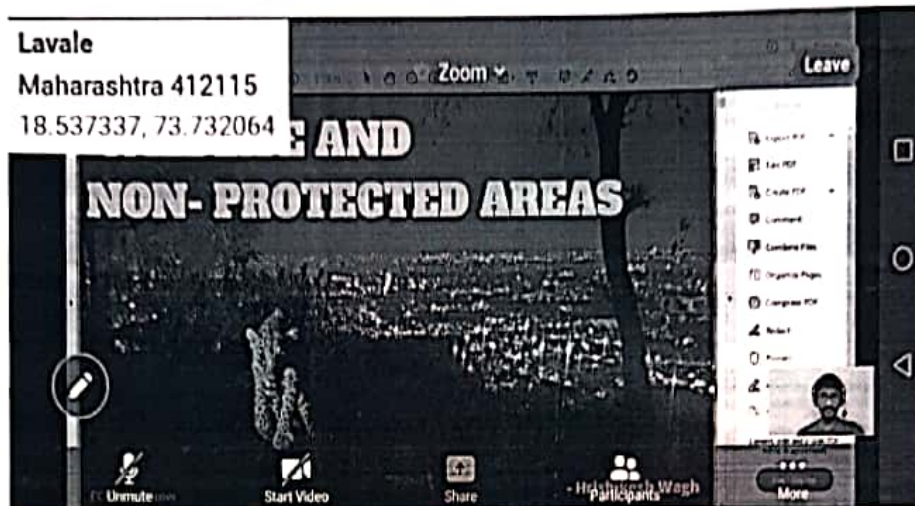

Director

Symbiosis College of Nursing(SCON)
Symbiosis International(Deemed University)Campus
Hill Base, Lavale, Pune - 412 115

The session was an interactive one and it definitely was a new learning experience. At the end of the session, Ms. Ritu Bhasin concluded with a thanksgiving speech and also encouraged the participants to get in touch with her for further details regarding the session.

It was indeed a wonderful experience to be a part of this unique session. More such sessions on rare topics like these would be appreciated in the future. This was not only a new learning but also a way to understand and encourage the fellow mates to be aware about such things and contribute towards a better future of the ecosystem.

Below are a few screenshot images from the session.

Notice

Dear students,

Symbiosis College of Nursing (SCON) is organising a Session on - DRY LEAF – NOT WASTAGE BUT UTILIZATION on 18th April 2021 from 11AM to 12PM by Biodiversity Cell. You all are instructed to be present for the same.

By order

Director

Symbiosis College of Nursing (SCON)
Symbiosis International (Deemed University) Campus
Hill Base, Lavale, Pune - 412 115

REPORT ON DRY LEAF – NOT WASTAGE BUT UTILIZATION

INTRODUCTION

The DRY LEAF – NOT WASTAGE BUT UTILIZATION online biodiversity session was organized team from symbiosis institute of Business Management - Hyderabad (SIBM-Hy). Held on 18th April 2021 from 11AM to 12PM by Ms. Aditi deodhar. Introduction part was given by Heena Goyal about the session and purpose of the session conducting. She introduced her team and felicitated Host of the session Aditi Deodhar.

ABOUT ADITI DEODHAR

She is a postgraduate in industrial mathematics with computer applications, and also she has completed post-graduate diploma in sustainable management of nature resources & Nature conversation from etiology society. She has started a platform called brown leaf that connects people who have brown leaves to dispose and then those who need to use.

She started this in November 2016 and by April 2017 her form was able to stop 5000 gunny bags of dry leaves from being burnt the leaves were introduced for different purposes like mulching and composting.

Aditi Deodhar with her compost project using brown leaves from lane

PURPOSE

To make aware everyone about how to utilize dry leaf, preventing and combating the hazard and harm to health and the environment arising from wastes.

Director

Symbiosis College of Nursing(SCON)
Symbiosis International(Deemed University)Campus
Hill Base, Lavale, Pune - 412 115

DESCRIPTION OF SESSION

In this overall session mainly was discussed under 3 main headings.

- Mulching
- Composting
- Receive donate

1. Mulching

Mulching is a process of crushing of dry leaves with hands and place those leaves in plant bed/ pot covering the soil completely.

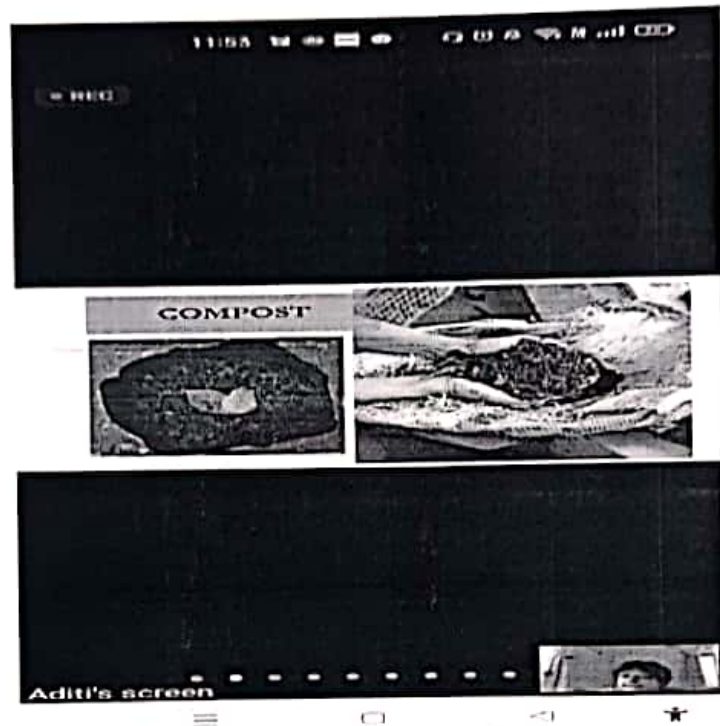

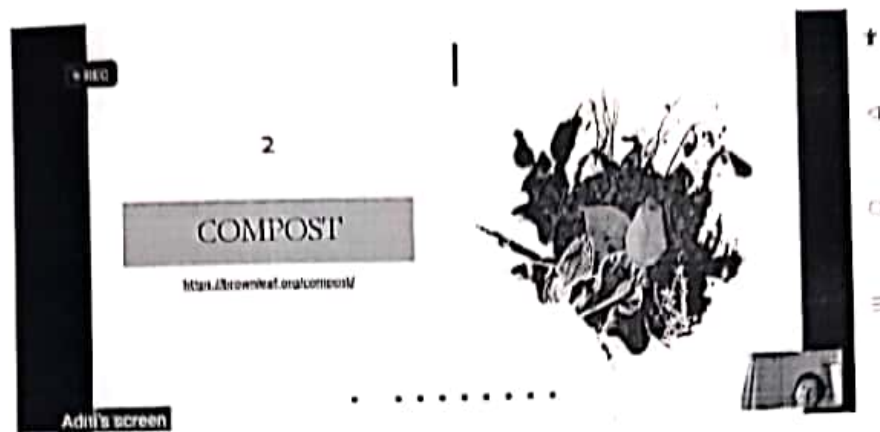

2. Composting

It's a second process of adding dry leaves to a compost bin, or pile them up in corner of yard. Then the leaves with a nitrogen rich item, like cottonseed meal, grass clipping. Build the pile up until its three feet tall and wide. And then turn the compost once a month.

Aditi
Director

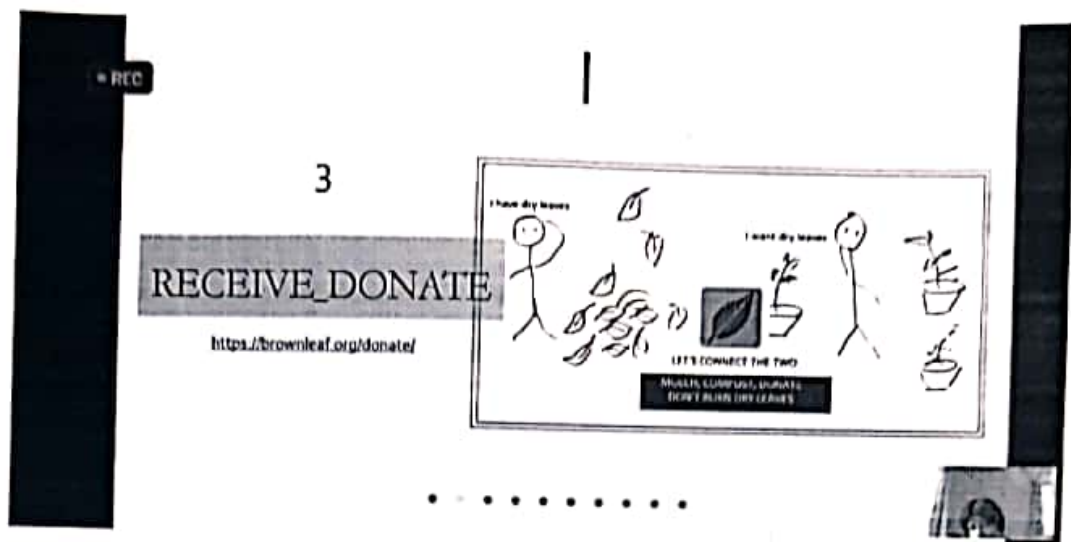

Symbiosis College of Nursing(SCON)
Symbiosis International(Deemed University)Campus
Hill Base, Lavale, Pune - 412 115

3. Receive Donate

This is the 3rd step brown leaf three fold strategy of managing dry leaves in eco-friendly manner.

Receive or donate brown leaves to the people who want for mulching and composting.

Mulch → Compost → Donate

These process of utilization was well explained by ADITI DEODHAR.

Aditi
Director

Symbiosis College of Nursing(SCON)
Symbiosis International(Deemed University)Campus
Hill Base, Lavale, Pune - 412 115

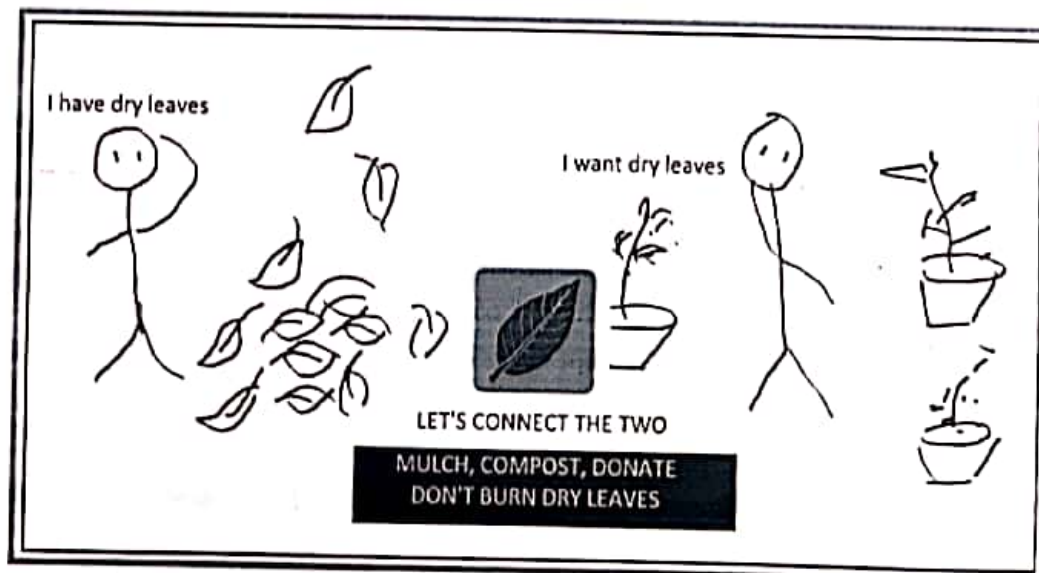

ABOUT BROWN LEAF

Since its inception in February 2016,
In Pune city, more than **50,000** gunny bags dry leaves
have gone back to the soil
instead of going up in the air as smoke

• • • • •

CONCLUSION

Mulch and compost is a great idea for the people who want to utilize brown leaf. There are the people who have dry leaves (leaf-donors) and there are people who want dry leaves (leaf-takers). This session conveyed useful message to delegates that "Not a single dry leaf should be burnt in India – Never burn precious dry leaves".

ATTENDANCE

(Msc 2nd Year)

SYMBIOSIS COLLEGE OF NURSING

REPORT ON WORLD NO TOBACCO DAY 2021

Date: 1st June, 2021

Time: 10:00 AM

Mode of Conduct: Via Zoom

Total number of participants: 15 FACULTY

03 NON- TEACHING STAFF

50 STUDENTS

On 31st May 2021, the WHO and global partners observe "World No Tobacco Day (WNTD)". The annual campaign is an opportunity to raise awareness on the harmful and deadly effects of tobacco use and second-hand smoke exposure, and to discourage the use of tobacco in any form.

This year, the theme of World No Tobacco Day 2021 is "Commit to Quit".

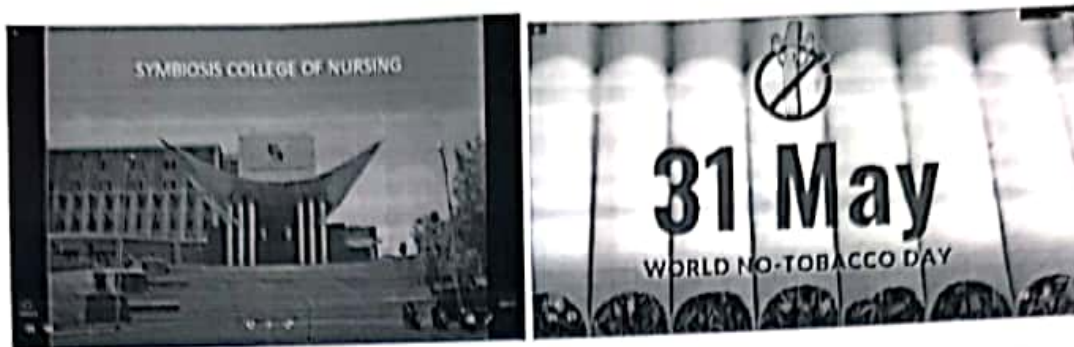

SCON to mark the occasion, pledge taking ceremony was conducted via Zoom with strict adherence to the COVID 19 guidelines. The Students and faculty of Symbiosis College of Nursing have actively participated by pledging together.

The #Epledge will motivate each citizen to take a conscious and collaborative effort to prevent using tobacco for at least 24 hours.

The Pledge was led by Dr.SG Joshi, Deputy Director, SCON.

SYMBIOSIS COLLEGE OF NURSING

REPORT ON MAJHI VASUNDHARA ABHIYAN

Date: 8th January, 2021

Time: 10:30 AM

Mode of Conduct: Via Zoom

Total number of participants: 19 FACULTY

04 NON- TEACHING STAFF

107 STUDENTS

On 1st January 2021, Chief Minister of Maharashtra, Hon'ble Shri Uddhav Balasaheb Thackerayji inaugurated "Majhi Vasundhara Abhiyaan" Web-portal.

Majhi Vasundhara #Epledge is an initiative by the Department of Environment and Climate Change, Govt. Of Maharashtra to connect with every citizen at a personal level. The #Epledge will motivate each citizen to take a conscious and collaborative effort towards the betterment of the environment.

SCON to mark the occasion, pledge taking ceremony was conducted via Zoom with strict adherence to the COVID 19 guidelines. The Students and faculty of Symbiosis College of Nursing have actively participated by pledging together.

The Pledge was led by Dr. Sharadha Ramesh, Director, SCON.
